### Message

The walls may be high but the spirit of human beings lodged for the wrong they have committed never die. They are always subject to humane treatment, reforms and rehabilitation in society. Achieving this object is not easy and smooth task and a large segment of society, social worker and prison administrators have to work together in resonance to bring these people back in mainstream of the society. This can only be obtained when we know the full dimension of work that lies ahead.

I am happy to note that prison department U.P. is starting the publication of prison statistics to facilitate the above objectives. I am sure it will provide a wealth of information to those really interested in the welfare reforms and rehabilitation of prisoners. I wish every success for the publication.

### Message

The prisons and correctional services are an important Component of criminal justice system. These play a very important role in Reform and rehabilitation of the prisoners, resulting in prevention of crime and creating harmony in society. Therefore, a complete study and the understanding of the Prison statistics has important role in the planning of strategies to improve the Prison administration and criminal justice system.

The compiled data of the Prisoners are valuable to the social scientists, prison institutions and to the administrators to identify the grey areas of the correctional administration and to formulate future strategies. With this purpose in mind, the data of the Uttar Pradesh prisons is presented in a tabular form. This is first attempt in U.P., therefore despite our best efforts certain short comings of form or content may be there. We would be grateful for suggestions to improve this publication. We shall endeavour to publish prison statistics, regular every year in future.

We hope that the policy makers, researchers and the social workers will certainly find it useful.

### Message

The walls may be high but the spirit of human beings lodged for the wrong they have committed never die. They are always subject to humane treatment, reforms and rehabilitation in society. Achieving this object is not easy and smooth task and a large segment of society, social worker and prison administrators have to work together in resonance to bring these people back in mainstream of the society. This can only be obtained when we know the full dimension of work that lies ahead.

I am happy to note that prison department U.P. is starting the publication of prison statistics to facilitate the above objectives. I am sure it will provide a wealth of information to those really interested in the welfare reforms and rehabilitation of prisoners. I wish every success for the publication.

### Message

The prisons and correctional services are an important Component of criminal justice system. These play a very important role in Reform and rehabilitation of the prisoners, resulting in prevention of crime and creating harmony in society. Therefore, a complete study and the understanding of the Prison statistics has important role in the planning of strategies to improve the Prison administration and criminal justice system.

The compiled data of the Prisoners are valuable to the social scientists, prison institutions and to the administrators to identify the grey areas of the correctional administration and to formulate future strategies. With this purpose in mind, the data of the Uttar Pradesh prisons is presented in a tabular form. This is first attempt in U.P., therefore despite our best efforts certain short comings of form or content may be there. We would be grateful for suggestions to improve this publication. We shall endeavour to publish prison statistics, regular every year in future.

We hope that the policy makers, researchers and the social workers will certainly find it useful.
